

S-CV-100-SS

Infra Red Remote Control

Transmitter unit

The Patriot infra red remote controller will allow the range master to operate the range remotely. The remote control unit can perform All of the macro functions tasks associated with the master control's Function "F" key system.

For the first time in history, the range-master can fully operate the range without being in the control room the infra red unit is capable of performing the same functions, or 324 combinations of functions, as the master keyboard. Exercises, lighting, targetFacing, announcements, etc... all preformed remotely!
